Trevor Lichfield

AWS Cloud Engineer | DevOps & Automation Enthusiast

Clearfield, Utah, U.S

I'm a Technical Support agent with over two years of application support experience, specializing in accounting functions and data validation with PostgreSQL. In my free time I've spent the last year and a half learning Programming, SysOps, and number of technologies and practices to become a well rounded DevOps engineer.

Skills

Programming

- Python
- PostgreSQL

Operations

- Kubernetes Administration
- Gitlab CI
- Terraform
- AWS

About Me

I'm 21 years old, recently engaged to the love of my life, and enjoy spending my time with my fiancé, our two dogs, and one cat. In my free time, you can find me writing python, taking care of my plants, fixing my car, and more recently, learning korean.
